## EUROPHRAS 2018

### *Reproducibility from a phraseological perspective: Structural, functional and cultural aspects*

10-12.09.2018

Reproducibility, which belongs to key terms in phraseological studies, is the focal issue of the conference, which will aim at offering an insight into this quality from a phraseological perspective by trying to provide answers to the following questions:

- What does the term *reproducibility* – of which several definitions exist – really mean in phraseological studies?
- How can reproducible language units be detected and analysed in corpora?
- How should they be described in mono- and bilingual dictionaries?
- What is their importance from the translational point of view?
- How to view them from a didactic perspective?
- How to discuss them in a cross-linguistic and cross-cultural context?

The list is not exhaustive and all proposals related to the notions of fixedness and phraseology are most welcome.

The conference is not limited to the main subject and proposals of section presentations and posters on other phraseological issues are also planned.

Persons who would like to organize special topic section and/or workshops are encouraged to send their proposals (one has to send the section or workshop abstract, the name of the chairperson and the names of participants along with the titles of their presentations).

## Important Dates

31.12.2017: Deadline for sending abstracts (section presentations, workshops, poster presentations)

31.03.2018: Acceptance information

15.05.2018: Deadline for registration and payment

30.06.2018: Program and further information

10.09.2018: Conference opening

## Abstract Submissions

300-500 words

Via website: [infofil.uwb.edu.pl](http://infofil.uwb.edu.pl)

## Venue

The University of Białystok, young and dynamic, will host the event.

**The University of Białystok, Philological Faculty**

**Venue address:** Plac Niezależnego Zrzeszenia Studentów 1, 15-420 Białystok.

The conference will be held in Białystok, the city of L. L. Zamenhof, the creator of Esperanto, a multicultural place, whose turbulent history marked its presence everywhere.

**Branicki Palace, the landmark of Białystok**

The town is situated in the north-eastern part of Poland (180 km from Warsaw) and the capital of the region of Podlasie (*województwo podlaskie*).

This region is rich in pristine forests – one of the unique places where you can see a European bison, unpolluted and thus called the Green Lungs of Poland.

And if you are lucky, you can see a bison near your local shop ; )

### Conference Language

English, French, German, Spanish

### Post-Conference Publications

Several post-conference peer-reviewed volumes will be published in the electronic version.

### Conference Fee

**Fee:** 100 euros

**Included:** conference materials, coffee breaks, welcome banquet, social program
